

Dr. Ragusa work ups

***REMINDERS:**

-CHECK PREVIOUS PLAN ☺

- VFs are 24-2 FAST by default, but check previous plan first
- NEVER dilate a glaucoma pt unless directed by the doctor or in plan
- DO NOT dilate patients with an Rx of +2.00 or higher

Glaucoma

Check IOP → Applanate
Vision

→ RNFL, HVF yearly
Pachy

Glaucoma Suspect

Auto-refract
Vision
check IOP

Pachy, NFA/RNFL, HVF yearly

New Glaucoma eval

Refraction, pinhole if NI
Pachy
NFA/RNFL

Non-glaucoma NP

Auto-refract
Lensometry
Vision
Refract
IOP *If IOP >20, applanate
*Do not dilate

Annual Exams

Auto-refract
Lensometry
Vision
Refract
IOP *If IOP >20, applanate
*Dilate 0.5% or 1%

Diabetic, Cataracts, ARMD

Auto-refract
Lensometry
Vision
Refract
IOP *If IOP >20, applanate
*Dilate every 6 months

Plaquenil Exams

Visual Field yearly → [0-2
Red stimuli
size 3

Auto-refract

Lensometry

Vision

Refract

*Color Vision

IOP *If IOP >20, applanate

*Dilate every 6 months

Cataract Sx 1Day PO

Remove patch

Check distance VA in Sx eye

Check IOP

Go over drops (med sheet)

Cataract Sx 1Week PO

Check distance VA in Sx eye

Check IOP

Go over drops

Cataract Sx 1Month PO

Auto-refract

Check DV & NV in both eyes

Refract OU

Check IOP

Yag Cap PO

Auto-refract

Check DV in Sx eye

Refract Sx eye

Check IOP in Sx eye

Dilate

SLT PO

Check DV in Sx eye

Check IOP

Dilate (according to exam)

Pterygium Sx PO

Key:

PO = post op

IOP = eye pressure

DV = distance vision

NV = near vision

☺ Any questions
ask the doctor

PND → Patient New to Dr. R

Check if they had an OCT
previously, if no, take picture
HVF 24-2

Cataract Evaluation

Topography

OCT (Mac)

IOL Master

Auto K's

BAT

PI work ups

Pilo and Simbrinza

(Combigan)

Check VA

IOP

Anterior LASER template
must be filled out

SLT work ups

Use 1 gtt of IOP lowering
meds

NO PILO
